SPARTACANS LOSING OUT

EBERT NOW HAS SITUATION WELL IN HAND. REBELS LOSE HEAVILY.

By the Associated Press

BERLIN, Jan. 10.—(5:30 p. m.)—Government forces are in complete control of the section of the inner city between the Brandenburg gate and Friedrichstrasse and has issued an order prohibiting all processions.

The Spartacans apparently have lost hope. They failed to summon a mass meeting of their supporters today and the streets are almost deserted.

Government Triumphs.

PARIS, Jan. 10.—The latest news here from Germany, although fragmentary and sometimes contradictory, indicates that the Ebert government has won a victory over the Spartacans, owing to the sudden impetus given the government's cause by the support of the loyal element of the army. In the sanguinary fighting of the last five days the Spartacans are reported to have suffered very heavy losses.

Spartacans Hold Police Headquarters

BERLIN, Jan. 10.—It was given out from official sources this afternoon that government forces had captured police headquarters from the Spartacans. It was learned this evening, however, that police headquarters are still retained by the Spartacans.

225,000 MEN WANTED FOR NAVY NEXT YEAR

By the Associated Press

WASHINGTON, Jan. 10.—A temporary naval force of 225,000 enlisted men for the year beginning next July was decided on today by the naval sub-committee of the house in beginning the work of framing the naval appropriation bill. This force is 25,000 less than was recommended by Secretary Daniels.

READY FOR NEGOTIATIONS

MATTERS IN SHAPE FOR BEGINNING DEFINITE WORK BY PEACE DELEGATES.

By the Associated Press

PARIS, Jan. 10.—After nearly a month of waiting and preparation, conversations which will lay the foundation of the actual peace congress are about to start. American delegates feel that a good deal of progress might have been made before now if a full representation of the allied nations had arrived, as many of the principal questions to be discussed concern most intimately the United States, Great Britain, and France. There is some hope of making headway while awaiting announcement of the full Italian delegation and arrival of Japanese representatives. The Belgians will arrive next week but they hold the status of minor belligerents. It is settled that when President Wilson reaches America next month he will address congress and give a report on what has been accomplished. There is little hope however, that the president's report can be anything more than an outline.

GLASS PLANT IS IN SATISFACTORY STATE

The stockholders of the American Glass Casket Company at a recent meeting elected the following as directors: B. H. Frick, J. W. Brown, C. V. Gowing, J. W. DeCamp, J. P. Westbrook, J. F. McKeel and J. P. Roetz. The officers are B. H. Frick, president; J. W. Brown, vice president; C. V. Gowing, secretary-treasurer, and J. F. McKeel, counsel.

From this list it can be seen that this company is entirely under the control of local men. The affairs of the company were found to be in a good condition, and satisfactory progress has been made.

C. V. Gowing offered his resignation as general manager in order to accept a flattering offer with another glass plant. The directors decided he was entirely too valuable a man to let go, and did what was necessary to hold him. Mr. Gowing did not contemplate leaving Ada, however.

The four-foot mould has now arrived and several caskets of this size have been made.

KAISER'S TRIAL RECOMMENDED

COMMITTEE OF INVESTIGATION SUBMITS PLANS FOR TRIBUNALS.

By the Associated Press

LONDON, Jan. 10.—Proceedings against the former German emperor are advised in the report of a sub-committee of the commission charged with investigating violations of the laws of war appointed two months ago. Plans for tribunals which will try cases in which violations of war laws are alleged, have already been submitted.

GENERAL STRIKE IN ARGENTINE

CLASH OF TROOPS AND STRIKERS RESULTS IN 200 CASUALTIES.

By the Associated Press

BUENOS AIRES, Jan. 10.—A general strike was declared throughout the Argentine Republic at midnight last night.

200 Casualties in Clash.

BUENOS AIRES, Jan. 10.—Reports earlier tonight show more than 200 casualties resulting from disorders incident to the general strike. The most serious fighting occurred at the Varsena iron works, where troops and strikers clashed. The battle was continuing at nine o'clock last night.

PRECEDENT FOR FLEET'S SURRENDER

LONDON, Dec. 25. (Correspondence of The Associated Press).—The Bishop of Durham has found an historical precedent for the surrender of the German fleet in the pages of Livy. That ancient chronicler tells how, as an article of the peace agreement which ended the second Punic war, Carthage had to surrender to Rome the whole of her battle fleet.

Rome, the article points out, was the great military power and Carthage was the great naval power of antiquity, just as Germany and England in modern times. Rome beat Carthage—the soldier beat the sailor. In the conflict Rome revealed an extraordinary adaptability for naval warfare, and Carthage grave internal weakness.

"The German writers," the Manchester Guardian comments, "anticipated a similar course for a war between Germany and England. They were confident that the German military mind applied to naval warfare would prove its superiority to the English, and that England, put to the test, would be proved rotten—a great illusion."

Explaining why the parallel of antiquity was deceptive, the Guardian proceeds:

"It should not too hastily be assumed that the British Navy displayed an intellectual superiority derived from long tradition which no young navy could hope to overcome. We are on safe ground if we say that the German navy, unlike the navy of ancient Rome, showed itself singularly wooden and unadaptable. Sir David Beatty has pronounced its strategy and its tactics contemptible."

"If the comparison of Germany with Rome was false, still false was the comparison of England with Carthage. Carthage was a narrow oligarchy resting upon a peculiarly harsh slave system, and defended by a mercenary army recruited from all the Mediterranean peoples. Carthage's lack of freedom was her weakness, and England's freedom her strength. But gentlemen of the school of Treitschke could not be expected to see that, for the despised political freedom."

MASS MEETING MONDAY NIGHT

A meeting of the Chamber of Commerce will be held at the city hall Monday evening at 7:30. The purpose of the meeting is to discuss the matter of securing from compresses sheds for the storage of cotton in cases where a storage fee is charged, thus saving much cotton that is otherwise damaged. The entire citizenship is urged to attend this meeting.

MORE MEN ENROUTE HOME FROM FRANCE

By the Associated Press

WASHINGTON, Jan. 10.—Departure from France of the transports Huron, Belgic and Atena, with about 6,000 troops aboard, including many sick and wounded was announced today by the war department. The Huron is due at Newport News January 15, with 100 officers and 3,000 men. The Belgic is due at New York January 13 with thirty-six officers and 2,436 men and the Atena is due at New York January 19 with a detachment of headquarters troops, second division (negro), and 95 casual officers.

WOMEN NOT ELIGIBLE FOR JURY SERVICE

OKLAHOMA CITY, Jan. 10.—Women may not serve on juries in Oklahoma it was held by Attorney General S. P. Freeling yesterday in an opinion sent to D. M. Cavaness, county attorney of Grady county.

The attention of Freeling had been called to newspaper stories to the effect that women were to be called for jury service in Chickasha and this prompted the sending of the opinion.

Freeling pointed out that sections 1 and 19 of article 2 of the Oklahoma constitution provide that both grand and petit juries should be composed of "twelve men." The law providing the qualifications for jurors uses the term, "male citizens."

LATE APPOINTMENTS BLOCKED BY SENATE

The rapidly with which state leg-
islatures are ratifying the national
prohibition amendment indicates that
the reign of John Barleycorn is near-
ly ended. Time was when he ruled
with an iron hand and woe to the
legislator or official who refused to
do his bidding. He named most of
the public officials and even control-
led the courts. However, like other
autocrats, old John went too far and
now faces the day of reckoning. He
is fighting with his back to the wall
and now faces destruction.

Hot Air, Cold Air, and Foul.

I want a representative in every lo-
cality to sell stock in a giant air cor-
poration I am preparing to organize.
Millions of dollars can be made, for
the idea is new—never been tried be-
fore, and the public will always bite
at anything that's new. It is not
necessarily a hot air proposition for
cold air will be included in the deal
—and maybe foul air.

An outline of the organization is
given below.

As everybody knows the war has
made the airplane a commercial pos-
sibility and has placed it in the
class of common carriers. In a short
while unless something is done to
prevent, thousands of these machines
will be flying in every direction—
transporting passengers, carrying
mail, hauling freight and engaging
in a general business in competition
with the rail and express companies,
which must not be permitted. Be-
cause they have no tracks to lay, the
cost of operation will be nominal and
their competition with rail lines will
simply put the surface carriers out
of business—unless some ounce of
prevention is taken. Of course if the
government takes over the railroads
all will be well, for it does not matter
how much the government loses, and
besides the government can pass
laws to kill this competition—as
cities like Dallas, Texas, did to kill
the jitneys. But that would require
more purchasing of political machin-
ery, which would be too expensive.

The plan I have decided on to
save the carriers and to protect the
landowners against trespass of air-
planes is as follows: We lease the air
rights to all the land in Oklahoma
and sell them to the airplane com-
panies who want to operate in this
state. There is no question about a
land owner's right to prevent air-
ships from flying across his prop-
erty. When he buys land the title
includes everything from the center
of the earth to the blue of the
sky and the idea of using this space
must be nipped in the bud, and I
propose to do the little job. What if
an airplane should fall on your house
and kill your family? What if they
dump a lot of refuse and oil upon you
while you labor in your field? What
if they go beyond the speed limit in
passing over cities? Won't we have
to have police patrols in the air to
regulate the traffic? What if some
stray match from a passenger sets
fire to your haystack? What more
right has an airship to use the air
above your property than a gas com-
pany has to lay a pipe below your
property? I say none, and when put
to the test the courts will bear me out
in the contention. I call on the
legislature right now to pass laws
controlling this pernicious business,
which they will not do, therefore my
air corporation. If we can once es-
tablish the idea that airships must
pay for the air they fly through we
can later extend the principle to the
point of making everybody pay for
the air they breathe.

You see the plan is very simple
and agents can get rich in a hurry.
All you have to do is to lease up the
air in your territory—bottle it, con-
dense it, control it. When this is
done we will heat it and resell it to
the flying platoons and make mil-

Naval Names Perpetuated.

Few of the famous British regi-
ments still bear the names under
which their early battle honors were
won, but the navy—whose record of
fame dates from a much earlier pe-
riod than the army—has consistently
followed the policy of perpetuating
her famous names. The name of a
famous battleship is handed down to
a capital ship, while a famous frigate
or sloop is perpetuated in a modern
gunboat or light cruiser.

INDIAN APPROPRIATION BILL
REPORTED BY SUBCOMMITTEE.

WASHINGTON, Jan. 10.—The Indian appropriation bill was reported by the subcommittee today with provision for per capita payment to the Choctaws and Chickasaws of \$150. The full committee may increase this to \$200.

The committee reported adversely a provision for the government to name a commissioner to act with a like official from the State of Texas to remark the boundary between the Choctaw and Chickasaw Nations and Texas; also it killed the \$25,000 appropriation for six oil and gas inspectors, clerks and field assistants. These items have been asked by the Bureau of Indian Affairs.

The Alabama Indians of Eastern Texas obtain only \$2,000, which will pay their pro rata at 10c per capita for attendance to the public schools of Texas. The department asked \$140,000, to be used as follows: For civilization, \$15,000; to purchase lands, \$100,000; to purchase live stock and agricultural implements, \$25,000. The last two items were to be reimbursable.

DARING FEAT OF ITALIAN SEAMEN

ROME, Dec. 25 (Correspondence of The Associated Press).—It was by swimming into Pola harbor and steering two small submarine motors towing bombs that two Italian naval officers destroyed the Austrian dreadnought Viribus Unitis just before the signing of the armistice between Italy and Austria. The swimmers were in the water nine hours and had to penetrate four barriers across the harbor entrance, two of which were composed of steel submarine nets. After they had attached their bomb to the side of the dreadnought, they were captured and taken on board the vessel and were there when the warship was blown up.

They escaped without injury and have returned to Rome to tell of their exploit which is characterized as one of the most daring and successful in the history of naval warfare. Only the fact that the Viribus Unitis had been destroyed by Italian naval forces previously had been made known but now the details have been given out by the Italian Admiralty.

The officers who thus sent to the bottom a 20,000-ton ship, one of the most powerful in the Austrian navy, were Lieutenant Raffaele Paolucci and Major Raffaele Rossetti. The attack was delivered on the morning of November 1, 1918.

To tow the bombs into Pola harbor, the two Italians invented small compressed air motors to which were attached bombs. For six months the two naval men practiced in long distance swimming. The Italian Admiralty gave them the use of a motor boat.

Reaching the harbor entrance at nightfall, the two daring men started on their expedition swimming beside their little motors and steering them. To escape detection by sentries on a wooden pier across the harbor mouth, Paolucci and Rossetti had hats shaped like bottles, and the sentry saw nothing but a couple of bottles being tossed about by the waves. When his back was turned they advanced and safely passed the first barrier.

After infinite labor they fought their way through the steel nets and the Austrian fleet lay before them. Reaching the side of the Viribus Unitis, they attached the bomb to her hull beneath the ladder which led to her deck and timed the bomb to explode at 6:30 a. m.

By this time they were exhausted having been in the water more than nine hours. As they were leaving, they were discovered and taken on board the dreadnought. At first they refused to answer the questions asked them by Admiral Voucovich. At 6:15, however, they told the admiral what they had done and he gave the order to abandon ship. Paolucci asked the admiral if he and his friend might also try to save themselves and he shook hands saying, "You are brave men and deserve to live." They plunged into the water and swam away, but ten minutes later the admiral began to suspect the bomb story and sent a launch to bring them back. They were made to walk up the ladder under which they had set the bomb, which was due to explode in ten minutes. The ladder was crowded with sailors returning to their ship.

"Run, Run for your lives," shouted Paolucci, struggling to reach the deck before the explosion took place. He and Rossetti had reached the deck and ran to the stern of the ship when a terrific explosion sent the air and a column of water 300 feet high and a column of smoke 500 feet high again gave them permission to save themselves, and they had been swimming away from the ship five minutes when they heard another explosion and saw that the other bomb which had been left adrift had been carried by the current alongside the large Austrian liner Wien and had there exploded.

The Viribus Unitis was then lying on her side, but suddenly the huge ship turned bottom upward and Lieutenant Paolucci saw Admiral Voucovich scramble upward and stand with folded arms on the keel, ready to go down with his vessel.

Major Rossetti and Lieutenant Paolucci were recaptured and taken on board another Austrian warship where they were kept prisoners until the armistice was signed and an Italian warship entered the harbor. Then a launch was sent for the two heroes and they were sent on a destroyer to Venice where the people gave them a vociferous welcome.

TO ALL STOCKHOLDERS:
There seems to be some misunderstanding by the First Annual Meeting of the stockholders has been called to meet at our office in Oklahoma City instead of Ada.

You are advised that the By-Laws provide for the meeting to be held at Oklahoma City, and so it will have to be held there this time. It is the intention of all stockholders to change the By-Laws this respect and provide that all meetings must be held at Ada. This will positively be done, so no stockholder need have any worry over this matter.

BY A HAIR.

Some thirty-five years ago, at a public dinner, General Von Manteuffel, the German military governor of Alsace, got into a dispute with a French diplomat over the question of the superiority of French workmen over the artisans of other nations. As a General Von Manteuffel hated the French and everything that savored of that nation, the dispute assumed the proportions almost of a quarrel. Finally, the French diplomat, with a smile, remarked that nothing existed that was so ugly that a French expert could not make it into a thing of beauty.

Pulling a hair from his bristly gray mustache, Von Manteuffel said: "All right, then, take that, send it to your French artisan, and let me see if he can make a thing of beauty out of it."

The diplomat took the hair, sent it to a well-known Parisian jeweler, with a letter explaining the circumstances, appealing to his patriotic pride, and telling him to spare no expense in making that hair "a thing of beauty." and then he assured the German general that if he would have patience he should see the result of real French skill.

In the course of a week the general received a neat parcel from the jeweler. It was a beautiful scarf pin in the form of a Prussian eagle; in the talons of the bird was the hair, at each end of which was a little gold ball. On one of the balls was inscribed "Alsace" and on the other "Lorraine," while on the eagle's perch were the words: "You hold them, but by a hair only."

Needless to say the general had very little to say after that against French workmanship.—Young People.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

Bowels Usually Clogged?

Regulate them with safe, sure, comfortable Dr. King's New Life Pills. Correct that biliousness, headache, sour stomach, tongue coat, by eliminating the bowel-cloggers. 25c.

GREATER STRENGTH Fewer Spoonfuls

BIGGER SAVINGS

The value of baking powder is based on its *leavening strength*. You can't judge it by the size of the can—or by the amount you get for your money. You must estimate it by the amount of baking powder *used* in each baking and the *results* you get.

CALUMET

is the greatest value ever offered in Baking Powder—it has greater raising "force"—it goes further than most of the other brands. You use only a rounded or heaping teaspoonful where others call for two teaspoonfuls or more.

But Baking Powder is not all you save when using Calumet. You save baking *materials*. Calumet *never* fails. The last level teaspoonful is as powerful as the *first*. Calumet is perfectly manufactured—*keeps* perfectly—and is moderate in price.

You save when you buy it
You save when you use it

One trial will satisfy you of these facts—and demonstrate beyond doubt that "Calumet spells economy."

Your grocer sells it on a guarantee of money back if you are not pleased with results.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities. Made in largest, finest, most sanitary baking powder factory in the world.
